Dear Parent/Carer

Year 10 Mock Examinations

Starting in the week beginning **Monday 21st June 2021**, our Year 10 students will be involved in mock examinations over a two week window.

We want to make sure that students have practice in taking written examinations and it helps us assess how well they have progressed so far this year. It will also help students to experience and manage a similar exam series to what they will experience in the summer of 2022 – even more so important, given the unimaginable events of the last 12 months. This year, examinations will take place in classrooms, with a hopeful return to the gym during the November Year 11 mock examination window. Students will sit an examination in each of their subjects and it is important that they are well prepared.

Revision materials and topic lists can be found for each subject on the 'Its Learning' home page under the course '**Key Stage 4 Blended Learning Resources 2020-2021**'. Students will also be receiving information on revision strategies and techniques during form time in the weeks leading up to the examinations. Parents can help by checking the subject pages, testing your child and making sure that your child has the correct equipment in a **clear** pencil case. This includes:

- 2 Pens
- Pencil
- Ruler
- Rubber
- Sharpener
- Calculator

Examinations do not fill the entire day; students need to bring their PE kit and books for lessons if they do not have an exam at that time.

The timetable for examination week can be found overleaf.

We thank you very much for all your support during this challenging year. It makes an enormous difference and we are very proud that your child is with us.

Yours faithfully

W. Overton
Assistant Headteacher
